Medanta been recognised for its excellence both in India and globally
Best Private Hospital in India three years in a row

Amrit Ratna Samman by News 18 on India's 75th Independence Day

All India Critical Care Hospital Ranking Survey 2022 by Times Health Survey

- Newsweek ranking as the Best Private Hospital in India three years in a row: 2020, 2021 and 2022
- Only Indian private hospital to be featured in the Top 200 hospitals of the world, 2021 and 2022

National and International Quality Accreditations

World class infrastructure

Infrastructure designed to create a safe and efficient environment for treatment

Patient Centric Design Focused on Quality and Safety

High square foot to bed ratios

- Wide corridors to for easy bed movement, natural light in every possible patient space.
- Co-horting of OPD and IPD of specialties on one floor to give a 'hospital within a hospital' feeling for each super specialty
- High focus on infection control practices (e.g., dedicated AHUs for all OTs, ICUs and wards, dedicated transplant rooms with positive pressure and isolation rooms in each ICU)
- Ayurvedic herbal garden to provide a secure environment for patients to enjoy natural elements in a controlled way
- Strong focus on patient safety (including fire safety) in design. Infrastructure designed to comply with JCI standards
- High proportion of OTs, procedure rooms and ICUs relative to overall bed strength given heavy procedure orientation of the clinical work

High standard of care enabled by the latest sophisticated technology

Providing the latest tools to enable our doctors to deliver the greatest care

Artis-Zeego Endovascular Surgical Cath Lab

Enables cardiologists and surgeons to work together on **complex procedures** such as **aortic dissections**

Da Vinci Robotic System

Enables surgeons to perform **delicate and complex minimally invasive surgeries**

Biplane Cath Lab

Used for **highly advanced cranial procedures**

Cyberknife VSI Robotic Radiosurgery System

Non-invasive alternative to surgery for the treatment of both cancerous and non-cancerous tumours

Brain SUITE

State of the art Neurosurgery operating theater which includes an **MRI inside the OT**

Mammomat Revelation

Supports our clinicians to **provide best in class care** in the field of **Breast Health Journey** with a lower level of radiation dose

Lokomat

Allows physiotherapist to provide **robotic rehabilitation** personalized neurological rehabilitation program for the patients

3-Tesla MRI

Higher clarity imaging and field strength than the conventional 1.5 Tesla, which provides improved perfusion imaging, myocardial tagging and MR angiography

384-Slice CT

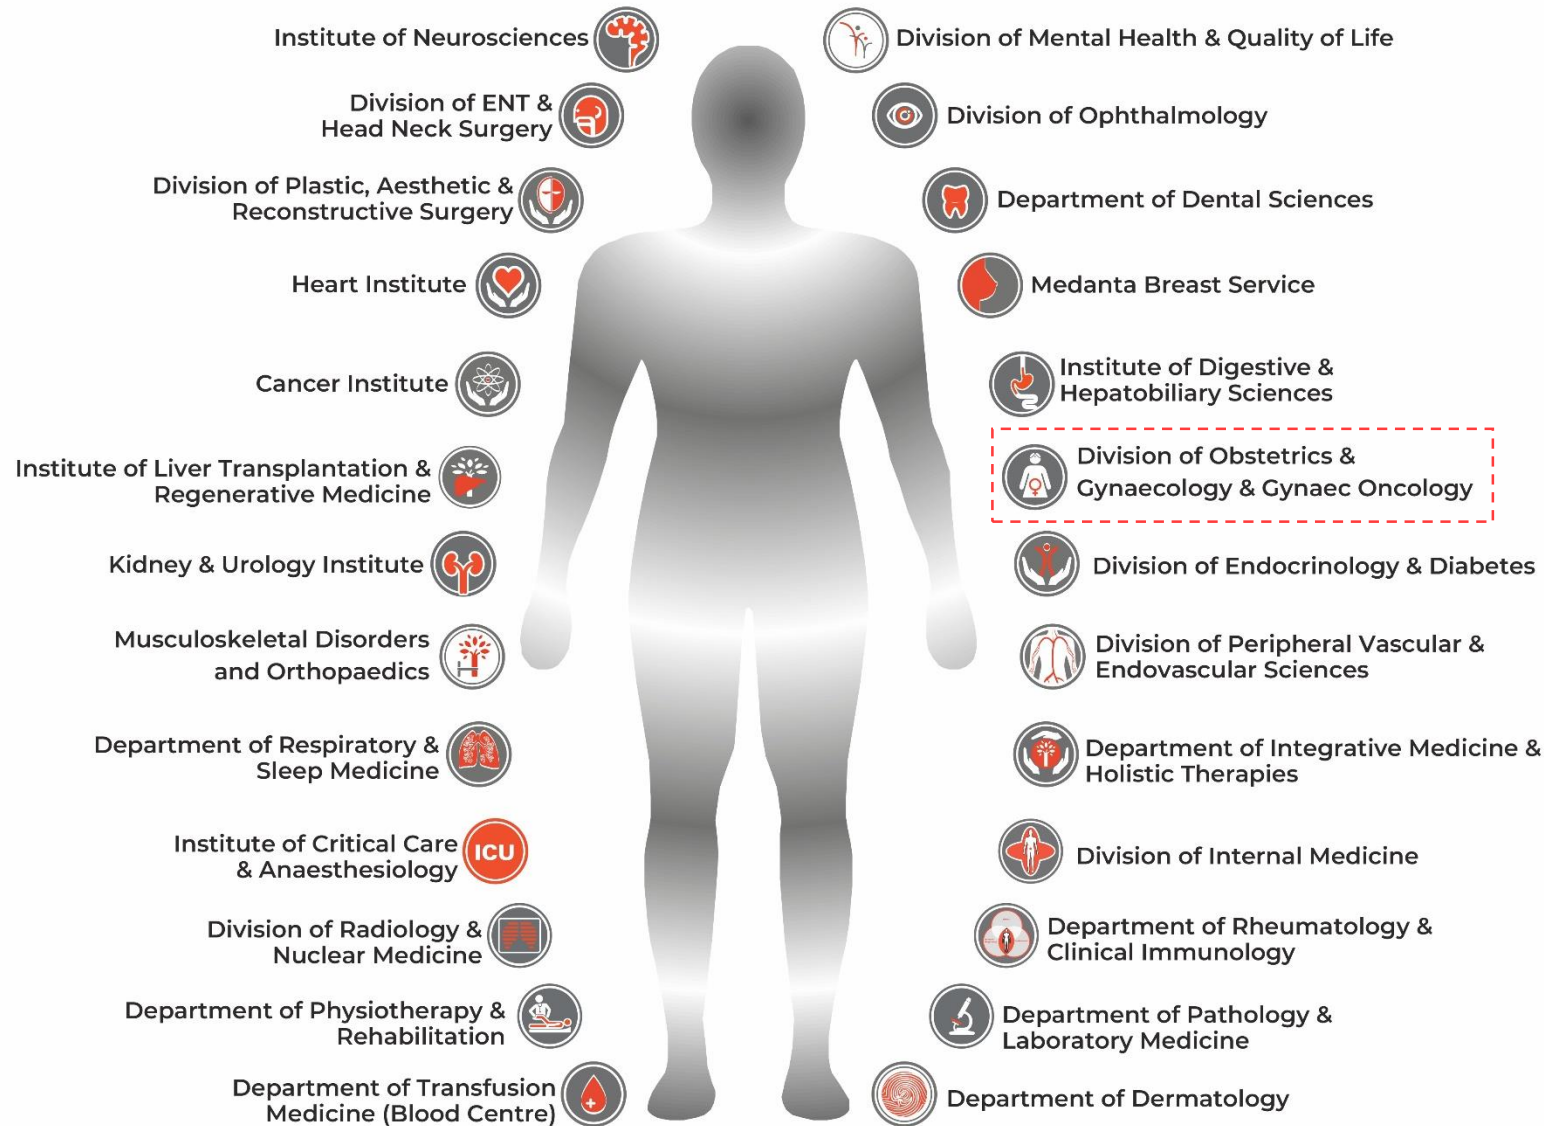

Advanced AI based CT scanner for **highly accurate CT** procedures and better evaluation of complex heart related diseases

Scope of clinical services

Women and Children Institute launched in Gurgaon

Obstetrics, Neonatology and paediatrics (general and super speciality)

Medanta Gurugram launched Institute of Women and Children in Feb 23.

Headed by Dr Praveen Khilnani, pioneer of pediatric critical care in India with over four decades of experience, the Institute will be a center of excellence for gynecological and obstetrics, and neonatal and pediatric care.

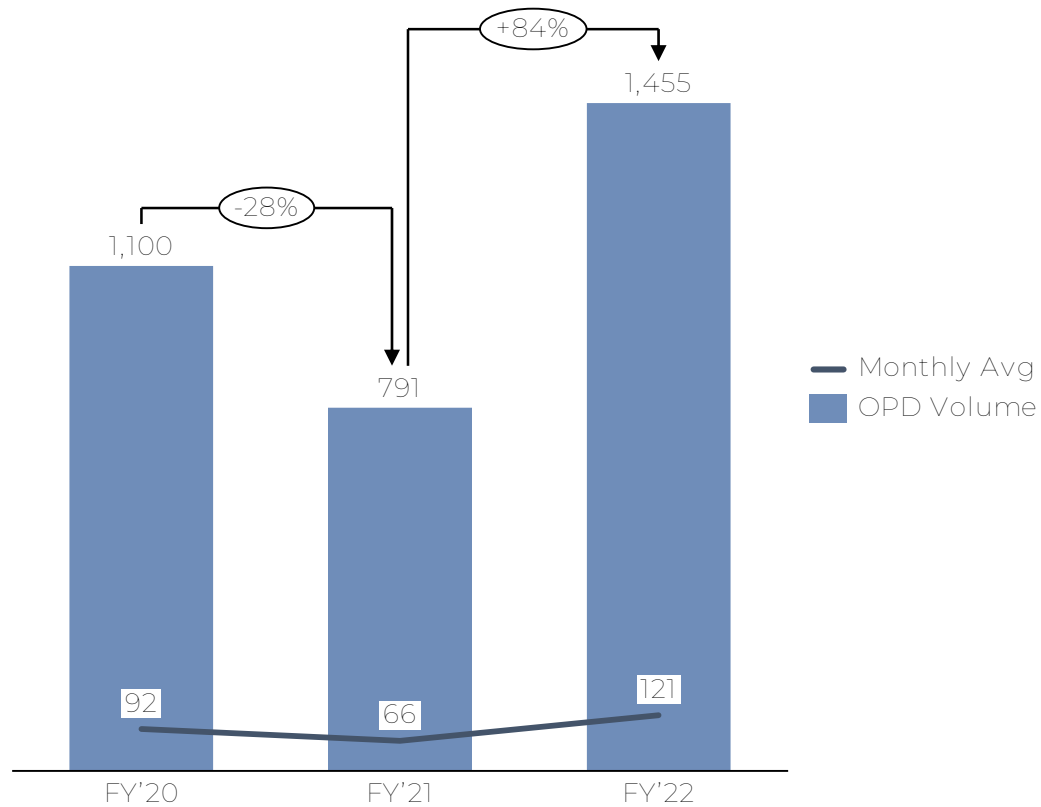

Dr Khilnani will be supported by eminent pediatric critical care specialist Dr Rajiv Uttam (Director and HoD – Pediatrics, Pediatric ICU and Pediatric Emergency), and high-risk obstetrics and gynecology expert Dr Preeti Rastogi (Director and HoD – Obstetrics and Gynecology)
